

How to set up ring video doorbell.

Ring DOORBELL 2 Doorbell Camera with HD Video - Use Manual - Use Guide PDF. Documents: Go to download! Owner's manual - (English) User manual Doorbell Camera for Ring DOORBELL 2 Table of contents Charging In-app Setup Physical Installation Features Troubleshooting Charge the provided battery First, fully charge the battery by plugging it into a power source using the provided orange cable. The small light on top will glow green once fully charged. If you can't wait to play with your Ring Doorbell, go ahead and set it up. But, we recommend fully charging it before installation. Set up your Ring Video Doorbell near your router. In the Ring app, select Set Up a Device. When prompted, select Ring Video Doorbell 2 and follow the in-app instructions. Connect the Wires (optional) Connect the wires coming out of your wall to the screws on the back of your Ring Doorbell. Either wire can connect to either screw. The order doesn't matter. Attach the wire extensions (optional) If you have trouble connecting the wires coming out of your wall to the back of your Ring Doorbell, use the provided wire extensions and wire nuts. Screw them into your wall and secure your Ring Doorbell on the wall using four screws. Install the faceplate Place one of the provided faceplates on your Ring Doorbell by slotting it in at the top and clicking it into place. Secure with a security screw. Lastly, use one of the provided security screws and the star-shaped end of the screwdriver bit to secure the faceplate. After setting up your Ring Doorbell in the app, select it. This will bring you to the Device Dashboard, where you can change settings and access various features. Ring Alerts are notifications you receive when someone presses the button on the front of your Ring Doorbell. Motion Alerts are notifications you receive when movement is detected within your Motion Zones. Shared Users. Select Shared Users to let family or friends answer live events and view recordings (if recording is enabled). Motion Settings. Select Motion Settings to enable and customize your motion detection settings. Device Health. Visit Device Health to diagnose any problems you run into with your Ring Doorbell. Event History. View a log of all the events captured by your Ring Doorbell in Event History. Newest Added: ALARMTags: Ring Doorbell Installation, Ring Doorbell User Manual, Ring Doorbell 2 Bedienungsanleitung, Ring Doorbell, Ring Com App, Ring Doorbel, Ring Batteries Page 1 Video Doorbell User Manual Page 2 Download the Ring app. The Ring app walks you through setting up and managing your Video Doorbell. Search for "Ring" in one of the app stores below, or visit ring.com/app. Charge your Video Doorbell. Plug it into a USB power source with the included cable. Once the light ring is fully lit, it's ready to use. Grab your wifi password. You'll need it for the next step, so write it down below. Set up your Video Doorbell near your wifi router. In the Ring app, select Set Up a Device. Try it out. After setup, push the button on the front of your Video Doorbell to see video from the camera in the Ring app. When prompted, select Doorbells, and follow the in-app instructions. If you have problems with video quality after installation, you may need to move your router closer to your door, or add a Ring Chime Pro. Learn more at: ring.com/chime-pro. Page 3 Select an install location. For optimal performance, install About 1.2 metres off the ground above the ground. If you're connecting to existing doorbell wiring that's higher than four 1.2 metres and want to angle your Video Doorbell down for a better view, you can purchase a Wedge Kit here: ring.com/accessories. Camera field of view Motion detection range 4 feet 1.2 inches metres 48 (120 cm) Page 4 Remove your existing doorbell. Mark the screw holes. First, shut off power at the breaker. Then, remove your existing doorbell button from the wall and disconnect the wires. Install the anchors (optional) On stucco, brick, or concrete, use the provided bit to drill holes in your wall, then insert the anchors. (If you're installing on wood siding, you can skip this step.) Use the bracket as a template to mark the four corner holes. The recommended install height is 4 About 1.2 metres off the ground. Please see the included pamphlet for installation precautions. Install the mounting bracket. Use the phillips head side of the Ring screwdriver to screw in the mounting bracket. Keep the orange screwdriver handy. You'll need it to take your Video Doorbell off the wall for charging. Page 5 Install the mounting bracket. (continued) If you're wiring your Video Doorbell, feed your doorbell wires through the hole in the mounting bracket first. Connect the wires (optional) Connect your doorbell wires to the screws on the rear of your Video Doorbell. It doesn't matter which wire connects to each screw. Drive the screws into your wall (or into the anchors, if installed) until they are flush with the mounting bracket. The wiring must be connected to a transformer with a voltage of 8VAC - 24VAC (50 or 60 Hz, 40VA max output) and an internal doorbell or resistor. Do not connect to a DC transformer, halogen or lighting transformer, or intercom. Page 6 Attach your Video Doorbell to the mounting bracket. 10 Hook the slot on the rear of your Video Doorbell onto the tab near the top of the mounting bracket. Secure your Video Doorbell. Use the star-shaped end of the included screwdriver to drive the two security screws into the bottom of your Video Doorbell. Your Video Doorbell is now ready to use. If you wired in your Video Doorbell, you can now restore power at the breaker. Then, let the Doorbell pivot down to sit flush on its bracket.
